

A DIFFERENT
WAY OF
LOOKING

THINGS

SOLICITORS

At Thrings we believe that the way we look after you is as important as the legal work we do for you. It's one of the things that sets us apart, makes us a pleasure to work with, and brings real value to our clients. We think it's all down to our different way of looking at the world, and that's what this little book is all about.

GREAT RELATIONSHIPS DON'T GROW ON TREES

Like anything worthwhile, a successful partnership requires dedication. We care about you and your business, and we anticipate your future needs, becoming a strategic partner and trusted confidante. Focused yet friendly, we give you something to smile about.

TALKING SOLVES EVEN THE KNOTTIEST OF PROBLEMS

You can always talk to us. Building a dialogue that's open and honest helps us understand and trust each other. With this relaxed, informal connection comes the knowledge that we're all part of the same team, and the confidence that we've always got your best interests at heart.

WE OFFER ALL KINDS OF INTERESTING PERSPECTIVES

By finding out more about your life, your company or your industry, we gain an expert insight into you and your business. So as well as providing the best solutions to your immediate challenges, we also make sure you're perfectly positioned to take advantage of future opportunities.

JUST LIKE OUR MINDS, OUR DOORS ARE ALWAYS OPEN

Of course you can get hold of us by phone or email at any time. But a productive relationship should be so much more than that. For us, closed doors are missed opportunities. We're always available, and always happy to sit down and talk with you, person to person and face to face.

YOU WON'T FIND US PLAYING HIDE AND SEEK

When it comes to costs, we make sure everything is perfectly clear. You want to know exactly how much it's going to cost, and that you have a choice about what you pay for. We provide absolute transparency around fees, with timely and regular fee updates, so you'll always know what you're looking at.

SEEING THINGS DIFFERENTLY NOW?

Now that you understand a little about the
how, why not discover the what, the who and
the why?
